

Sophia's Full Day Report

Wednesday, September 3, 2026 · Austin · "Test day": calm, implement a few new things

The night before

- Completed all 13 Lights Out bedtime tasks. Streak: night 1.

Timeline

Time	What happened
~8:00	Up. Showered. Skincare. Back into pajamas. Made the bed right after waking.
8:16	Outside with the prepped smoothie for morning sunlight.
8:21	Cleared email and checked it off. Deleted 2 unused to-do items. Checked off "made my bed".
8:35	15 minutes of morning sunlight done.
~9:05	Research on Huberman, Dispenza, Proctor and Cardone launched (20 agents). Field Notes lab and The Dossier built.
9:33	Focus Rep 1 (15 min). Focused very well, got more done than a usual whole day. Some agitation after, handled with breathing.
~10:00	Dropped the 1-10 scores. New rule: one rep a day, one line of what got done, count the streak.
~10:05	Focus Rep 2, The Burn (6 min). 2 min prep, 3-4 min work, not agitated, 1 min deep breathing.
10:11	Admin block: stretch, texted therapist (1 min), BCBS portal (3 min), called IV nutrition office. All done.
~10:40	Scale read 167 (pre-period, after a 3,000-cal day, full bladder). Estimated true weight 162-164.
~10:45	Booked B-Lean IV at Ender Family Medicine, ~1:15 pm. Another health IV tomorrow.
~10:50	Low-calorie pizza in oven. Walked the green area with Shelby, 8 lb weighted vest, 10-20 min.
~11:05	On the walk: logged food, sleep, period note, texts, picked tonight's first Lights Out tile.
11:11	Took supplements. Midday schedule set.
11:15-11:45	WORK SESSION, 30 min, Psycho-Cybernetics shape. Drank all her water. "Got so much income-producing work done it's insane."
11:45-11:55	Clean, 10 min.

Time	What happened
11:55-12:25	Workout: 30 min of stairs with the 8 lb vest, unpacking the car into the new apartment.
12:25-12:50	Packed babysitting bag, showered, dressed. Left for the clinic.
~1:00	IV clinic (paid). Then babysitting.
afternoon	At babysitting: 5-min to-do list check. Sent a message to a client.
afternoon	Focus Rep 3: 1 min fixed gaze + 5 min locating work. Distracted once, came back.
afternoon	Focus Rep 4: 3 min nonstop work.
evening	Asked for deep research on breaking out of poverty as a locator. 4 agents launched. The Way Out plan built.
~8:20 pm	Downloaded Oportun. Set up goals: Housing, Groceries, Nest egg (\$500 buffer), Taxes, four birthdays, Travel. Round ups on. Low balance protection on.
~8:40 pm	Flagged last year's unfiled 1099 taxes. Plan: Prosper Centers, file, penalty relief, payment plan. Not urgent tonight.
~8:50 pm	Tool list for next steps. Top two: phone text replacements, Stride.

Exercises actually done, with results

1. Morning sunlight (8:16-8:35)

1. Sit outside, no sunglasses, no scrolling, 10-15 minutes.

Result: 15 minutes done by 8:35.

2. Focus Rep 1, neuroplasticity experiment (9:33)

1. Write focus 1 to 10. (Wrote 4.)

2. Phone on Do Not Disturb.

3. Timer: 15 minutes.

4. Minutes 0-2: open only what you need, then stare at one spot for 30 seconds.

5. Minutes 2-13: work. If you drift, look at the spot 3 seconds, go back.

6. Minutes 13-15: lean back, eyes closed, slow exhales.

7. Write focus 1 to 10.

Result: full 15 minutes. Focused very well. More done than in a usual entire day. Some agitation after, handled with breathing. Worked.

3. Focus Rep 2, The Burn (~10:05)

1. 10 squats.
2. Say "starting." Timer: 6 minutes.
3. Minute 0-1: paste the post, open the first group.
4. Minute 1-6: post to group after group. When you feel the pull to look away, stay.
5. Timer ends. Stop.
6. Eyes closed, 5 slow exhales.
7. Say "done."

Result: 2 min prep, 3-4 min work (Claude took over drafting, switched to other work, stayed focused). Not agitated. 1 min deep breathing. Worked.

4. Admin block (10:11)

1. Stretch in bed, 1 minute. Say "starting."
2. Timer: 2 minutes. Text therapist the two insurance questions.
3. Timer: 5 minutes. BCBS portal, find the one thing needed, write it on paper.
4. Call the doctor's office about IV nutrition payments. One question: "What do I owe and how do I pay it?"
5. Hang up. Say "done." Eyes closed, 5 slow exhales.

Result: stretch done. Therapist text took 1 minute. BCBS portal took 3 minutes. Doctor's office called. All done.

5. Walk with Shelby, 8 lb weighted vest (~10:50-11:15)

1. Food, yesterday: said out loud into notes.
2. Food, today: same.
3. Water so far today.
4. Sleep last night.
5. Period: note "due any day" with the date.
6. Two texts: boyfriend about dinner, one overdue reply.
7. Pick tonight's first Lights Out tile.
8. Gym: pick a time if going.
9. Last 2 minutes: phone away, look at the trees, slow exhales.

Result: food for yesterday and today logged. Water: half of goal at that point. Sleep: 7-8 hours, woke around 7:30. Period: any day. Most of the rest done.

6. Work session, Psycho-Cybernetics shape (11:15-11:45)

1. Eyes closed, 2 minutes. Picture a quiet room. Relax jaw, shoulders, hands.
2. Eyes closed, 2 minutes. Watch yourself on a screen doing the next 25 minutes calm and quick.
3. Say out loud: "I'm a locator who does this easily."
4. Phone on Do Not Disturb. Work 25 minutes. Mistakes and drift: correct and keep going, no replay.
5. Eyes closed, 1 minute. Replay one moment that went well.

Result: full 30 minutes. Drank all her water. Her words: "GOT SO MUCH INCOME PRODUCING WORK DONE ITS INSANE YAYYYY!"

7. Clean (11:45-11:55) and workout (11:55-12:25)

- Clean: 10-minute timer, one room.
- Workout: 30 minutes going up and down the stairs with the 8 lb vest while unpacking the car into the new apartment.

Result: both done. Workout and unpacking in one.

8. Focus Rep 3, mini science session (afternoon, babysitting)

1. Say "starting." Timer: 6 minutes.
2. Minute 0-1: hold eyes on one point on the screen.
3. Minute 1-6: one locating task. If you drift, look at the point 3 seconds, then back.
4. Stop. Say "done."

Result: done. Distracted once, came back. Done despite feeling it was pointless because short.

9. Focus Rep 4, 3 minutes nonstop (afternoon, babysitting)

1. Say "starting." Timer: 3 minutes.
2. One locating task, don't look up.
3. Stop mid-motion. Say "done."

Result: done. Four focus reps today.

Plans set today

Weight: 167 to the 150s before December

- True baseline: weigh one week after period starts. Today's 167 likely includes 3-6 lb of water and food; estimated real weight 162-164.
- 1-1.5 lb per week. 1,700-1,900 calories with daily gym. 130 g protein across 3 meals.
- Same breakfast (smoothie) and same lunch daily. Five grab foods instead of meal prep.
- Real protein lunch even when Adderall kills appetite. Weigh daily, judge the 7-day average. 3 lifting days. 7-9 hours sleep. Period week: +200 cal, no weighing.
- B-Lean IV: fine to go, no evidence it causes weight loss. Psycho-Cybernetics: one self-image sentence plus a 60-second scene, daily.

Focus and work

- One 15-minute rep a day minimum, same shape. Record the date and one line. Measure the streak, not a score.
- Every rep carries one revenue action: new renter outreach, follow-ups, posting, or a leasing-office contact.
- Sophia steers. She names the task; the exercise is built around it. No counts unless she asks.
- Tiny integrations: name any small action, do it, report it, it gets logged. One at a time. Done beats good.

The Way Out (from four research reports)

- Her loop: irregular income, money out to health costs, scarcity taxes attention, scattered sessions, fewer messages, fewer leases. Weak point: messages sent.
- A lease at Spirit's 100% model: \$1,600-1,800 gross, minus \$25 and \$99/month. 3 leases/month is about \$4,900 net (December target). 5-6 is \$100k+/yr. Cash arrives 60-150 days after signing.
- Daily numbers for 3 leases: 1-2 new inquiries/day; 10-15 group comments and DM replies; 1 post; 2-3 videos/week; 3-5 leasing-office touches/week; reply in under 5 minutes.
- Three reps a day: morning speed-to-lead (15 min), midday pipeline (15 min), evening money/invoices (10 min).
- Get paid: name on the guest card before every tour; invoice within 48 hours; tracker; weekly aging review; \$50 gift-card max for referrals.
- Money system: hub account; 25% to taxes and 10% to buffer on every deposit; fixed salary on the 1st and 15th; autopay from one bills account; one card for subscriptions; \$500 buffer first.
- Honest note: IV therapy is \$130-320/session, uncovered, no evidence for normal nutrient levels. Four sessions equals the whole first buffer.
- Free help: Foundation Communities Prosper Centers, 737-717-4000. Quarterly taxes Sept 15 and Jan 15.

Money tools set up tonight

- Oportun: Housing (Oct 1, weekly), Groceries (Sep 25, weekly), Nest egg = \$500 buffer, Taxes goal, four birthdays capped small, Travel (Dec 1), Round ups on, low balance protection on.
- Prior-year 1099 taxes unfilled: call Prosper Centers, file, ask for first-time penalty relief and a payment plan. A task, not a crisis.
- Next tools, pick two: phone text replacements for the 8 follow-up templates, Stride for automatic mileage. Same-vibe options: Qapital, Reclaim.ai, Rocket Money, Finch, Tiimo.

Pages built today

- Lights Out: bedtime routine game. Field Notes: dynamic self-experiment lab. The Dossier: research on Huberman, Dispenza, Proctor, Cardone with evidence checks. The Way Out: the plan out of the loop.

Today by the numbers

- Focus reps: 4 (15 min, 6 min, 6 min, 3 min) plus one 30-minute work session.
- Movement: 15 min sunlight walk, 10-20 min vest walk, 30 min vest stairs.
- Admin cleared: email, therapist text, BCBS portal, doctor's office, IV booked, taxes flagged, money app set up.
- Streaks: bedtime routine 1 night, focus reps day 1, sunlight day 1, food log day 1, money system day 1.

Tonight: Lights Out, night 2. Then sleep, which is where today's reps get saved.
